

We are particularly concerned with an answer to #6 since Enterprise Partners have experience pipeline explosions in 2015, 2016, and 2017.

We share your concerns and look forward to the response to our letter from Enterprise.

Concern #8-

Does Fire Chief Maxon have "Integrity Management Plans" for all 5 pipelines running through Placitas?

The fire department does not have a copy of the Integrity Management Plan for the pipelines that run through Placitas. We have requested a copy from each of the pipeline companies.

Concern #9-

Can Fire Chief Maxon provide you and LPA with these plans?

Once and if the pipeline companies release the Integrity Management Plans we will share them with the LPA or provide a safe mechanism for their release if there are security concerns.

Concern #10-

Does Fire Chief Maxon have "Integrity Management Audits" for all pipelines running through Placitas?

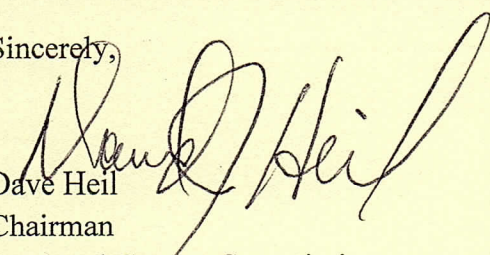

The fire department does not have a copy of the Integrity Management Audits for the pipelines. We have requested a copy of the Integrity Management Audits from the pipeline companies.

Concern #11-

Once and if the pipeline companies release the Integrity Management Audits we will share them with the LPA or provide a safe mechanism for their release if there are security concerns.

In conclusion the Sandoval County Commission is dedicated to the safety of our residents and we thank you for bringing your concerns to our attention. We will do everything we can to obtain the information necessary to make sure the pipelines through Placitas are safe as possible. Please contact me at 505-867-7538 if you have any questions.

Sincerely,

Dave Heil

Chairman

Sandoval County Commission
